

Business Intelligence
Scientific Permanent
Workshop

Organised by the
Hungarian Academy of Sciences
Regional Committee in Szeged
Scientific Body in Bekes County
and
the **Szent István University** Faculty of Economics,
Agriculture and Health Studies

Founder and chief
researcher:
Dr. Simon Sándor
associate professor

The main goal of our activity is to maintain and promote scientific and professional communication among enthusiastic students, teachers, researchers, experts and practitioners from different countries.

Main Research Fields

Enterprise Resource Planning,
Data Mining,
Mobile Technologies,
Computer Programming, Industrial Robotics,
Business Process Management,
Production Optimisation,
Controlling

Priority Project

Designing and coding applications for mobile devices to connect them to sql server databases managed by Microsoft Dynamics ERP softwares. (in collaboration with Microsoft Dynamics Academic Alliance Advisory Council)

Forums for communication

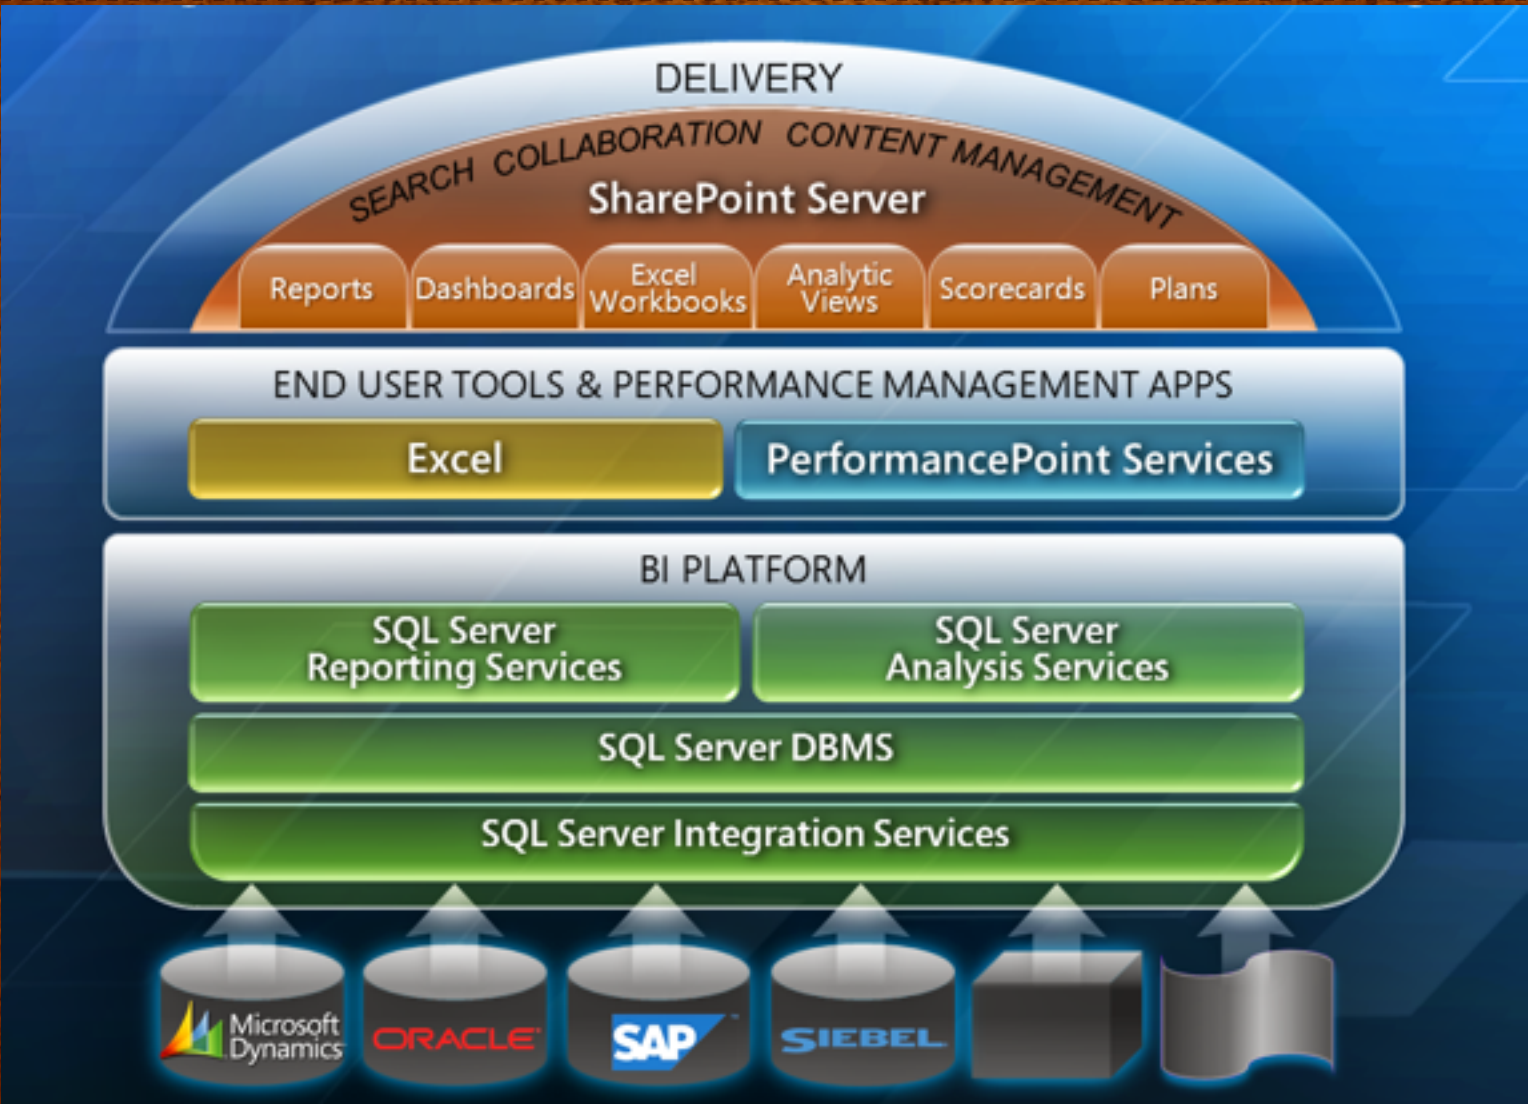

- News feed (tweets, retweets, replies) and information share at the **Twitter** account named “**StarCoder1**”
- occasional discussion sessions either online (video conference) either personally

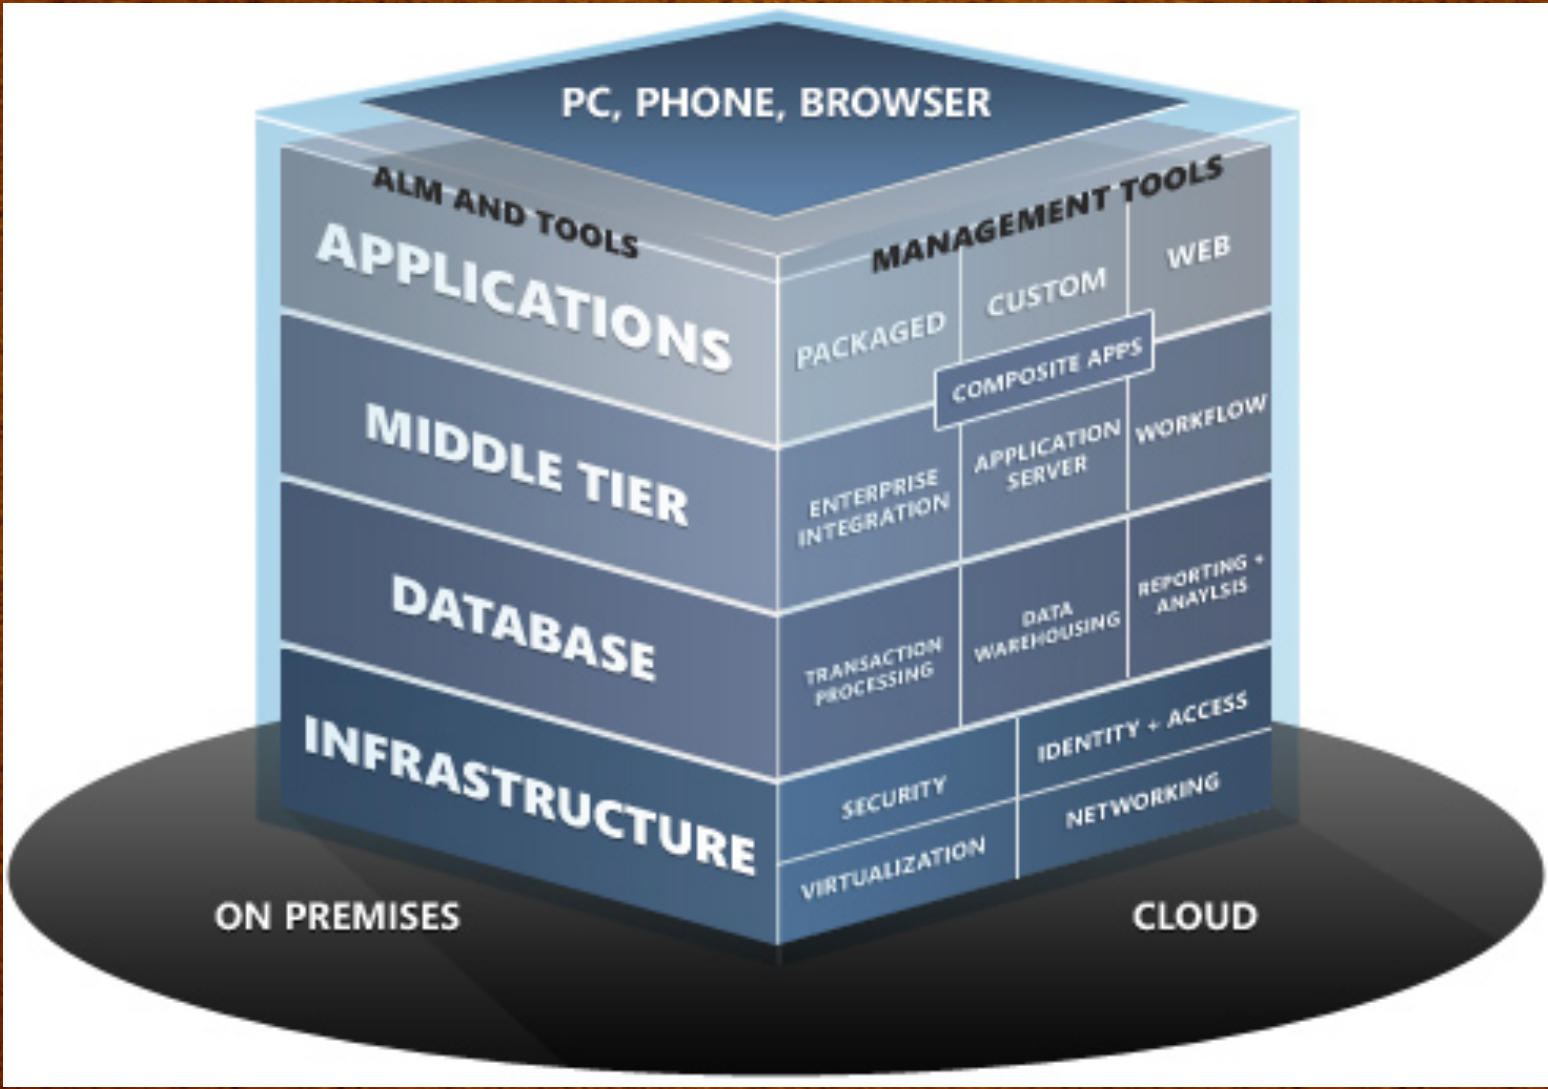

Building International Career

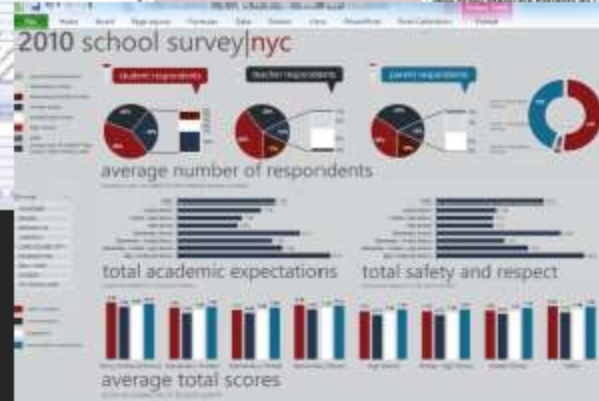

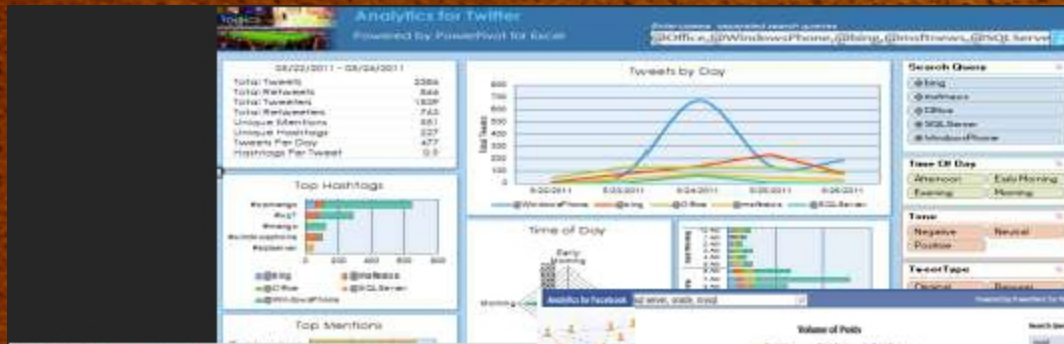

The competitive knowledge and the proper job possibilities can be achieved with a wide network of contacts.

The international relations and the student mobility programs of the B.I. Permanent Workshop are set up for this aim.
